This action is in response to the communication filed on 5/22/2007.

DETAILED ACTION

All objections and rejections have been withdrawn.

EXAMINER'S AMENDMENT

The application has been amended as follows:

Please correct the status identifier of claim 5 to read "Currently Amended".

Allowable Subject Matter

Claims 5-7, 10-12, 19, 22, 25, 28, and 31-32 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art, especially Vaidya and Sharma, fail to teach or render obvious the use, in an intrusion detection system of the combination of limitations as claimed, of a log consisting of timestamps, within a governor; and a signature file containing a signature event counter which contains a count of the number of occurrences of an event and which is updated to not include a count of events past a "sliding window", a signature set identifier, a signature event, a signature threshold quantity, and a signature threshold interval; and using the log and signature file's event counter to determine the alert generation rate, in order to determine if the alerts should be generated or not.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
